Whitepaper 1.0v – April 2023

What is Shaolin Token \$SHA0

Shaolin Token is the most patient and strongest fighter in the crypto world. Mission of Shaolin Token is, to provide safe place for community and investor.

We want to be the safest Crypto Token in the Crypto World for our holders.

Shaolin Token is a decentralized cryptocurrency token operating on the Binance Smart Chain that can be traded through [Pancakeswap](#) and [Poocoin](#).

Our first goal!!!

Above all, our goals are to grow continuously in the initial phase until we reach the 1 million USD capacity, so that we can start programming our staking portal. (NFTs for APR and an NFT Marketplace are our other goals). We will share everything else with our investors.

Some compelling features of Shaolin Token, that makes it superior to competitors?

- One of the safest contracts currently on the market.

- In an emergency and only if necessary, we can set the fees for buying and selling to a maximum of 15%. (We would only use these for attacks). Otherwise our fees will remain at 5%. The aim is to grow and then come down to 0.5% fees.

- We started Stealth Launch that will allow small investors to buy in now and make huge profits in the long run, especially once we start staking it will be very rewarding for anyone who jumps in now.

- 2 AMAs every month to attract more and more attention in the crypto scene. (We will definitely get this attention!)
